PLANT AND GENERAL OFFICE: PO Box 227, Edgar, WI 54426-0227 715-352-2311 Fax: 715-352-3163

CORPORATE OFFICE: 111 Lions Dr., Suite 220, Barrington, IL 60010

STEP 1: See PICTURE 1. Attach the TWO OUTSIDE DRAWER TRACKS (A) to the TWO END PANELS (B) using SIX ½” SCREWS (C) (three screws for each track). Line up the first hole behind the track wheel so that all three screw holes on (B) match up to holes on (A) and the narrower end of (A) lines up with the end of the track board.

STEP 2: See PICTURE 2. Insert the SIXTEEN BLACK PEGS (D) into the peg holes on the ends of the TWO TOP RAILS (E) and the SIX SHELF RAILS (F). Push the thinner end of the peg into the hole until the wider end is flush with the wood.

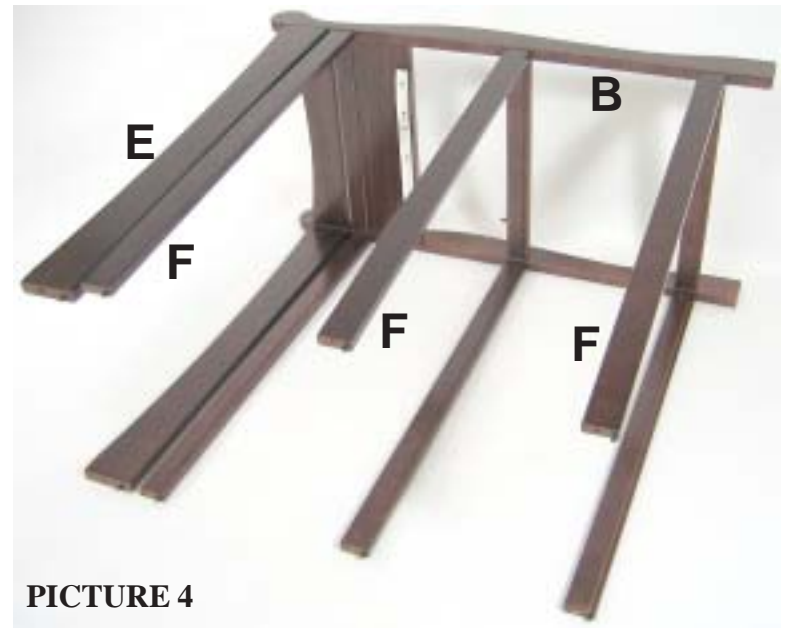

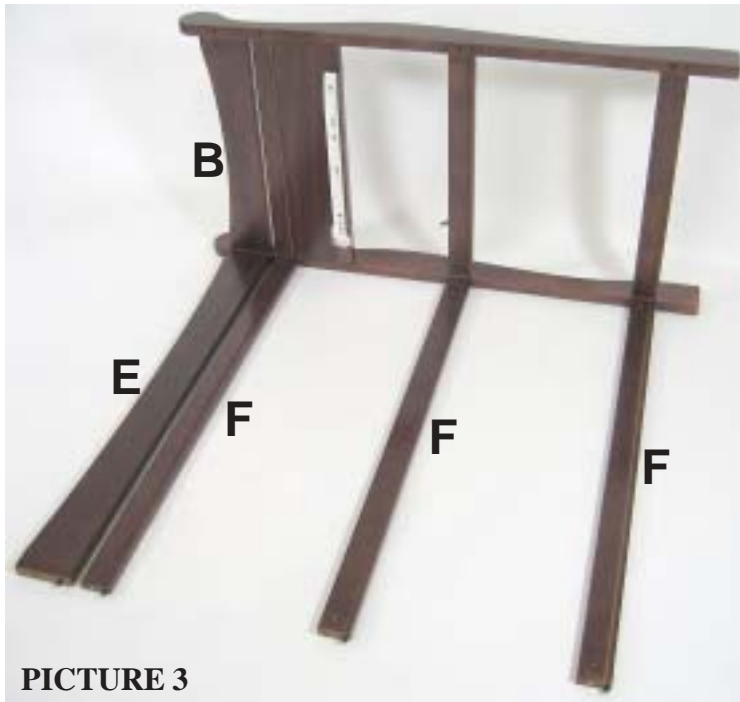

STEP 3: See PICTURE 3. Attach ONE TOP RAIL (E) and THREE SHELF RAILS (F) to ONE END PANEL (B) using FOUR 1¾” BOLTS (G).

Insert the PEGS (D) on the RAILS (E, F) into their pre-drilled holes on the END PANEL (B) to line up the holes for the BOLTS (G).

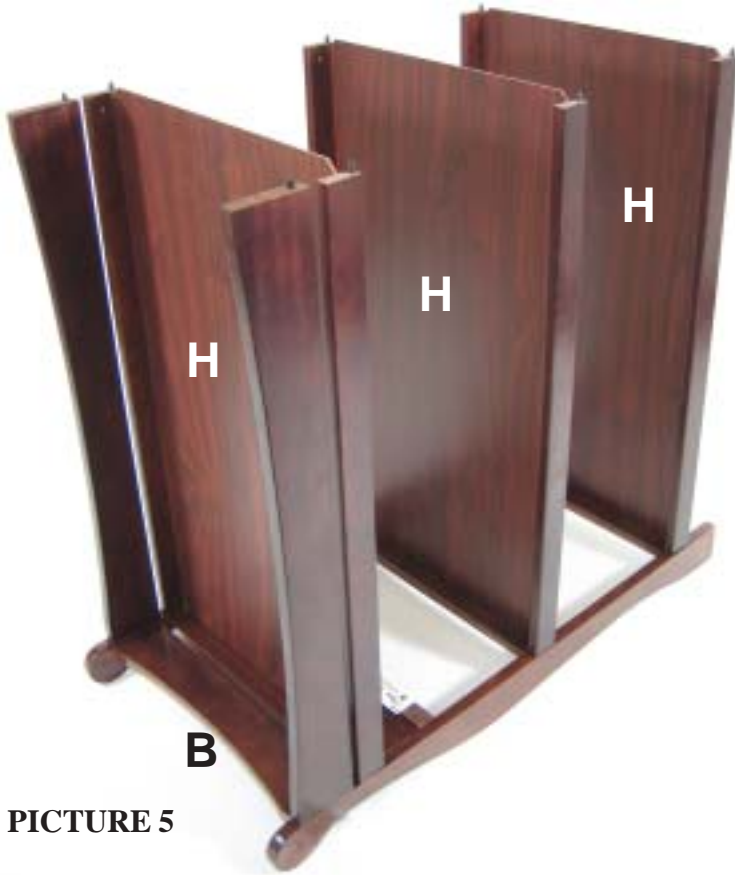

The grooves on the SHELF RAILS (F) face in and line up with the shelf grooves on the END PANEL (B).

STEP 4: See PICTURE 4. Repeat Step 3 to attach the remaining TOP RAIL (E) and THREE SHELF RAILS (F) to the END PANEL (B).

STEP 5: See PICTURE 5. Rest the table on the END PANEL (B). Insert the THREE SHELF PANELS (H) into the grooves on the SIX SHELF RAILS (F) with the white or colored sides (depending on your model) of the shelves facing up. Be sure the shelves are seated into the grooves on all three sides.

STEP 6: See PICTURE 6. Attach the SECOND END PANEL (B) to the TWO TOP RAILS (E) and SIX SHELF RAILS (F) using EIGHT 1¾" BOLTS (G).

PICTURE 5

PICTURE 6

STEP 7: See PICTURES 7A, 7B and 7C.

Note: This step can also be completed with the table upside down to make it easier.

See PICTURE 7A. Slip one end of the SAFETY BELT (I) between the TOP RAIL (E) and the TOP SHELF RAIL (F).

See PICTURE 7B. Using the pre-made hole on the SAFETY BELT (I) and the pre-drilled hole on the **underside** of the TOP SHELF RAIL (F), sandwich the end of the SAFETY BELT (I) between the METAL SUPPORT BAR (J) and the top shelf rail as shown and secure with ONE 5/8" SCREW (K).

See PICTURE 7C. Secure the other end of the SAFETY BELT (I) and the other end of the METAL SUPPORT BAR (J) using the second 5/8" SCREW (K).

PICTURE 7A

PICTURE 7B

PICTURE 7C

STEP 8: See PICTURE 8. NOW YOU WILL ASSEMBLE THE DRAWER!

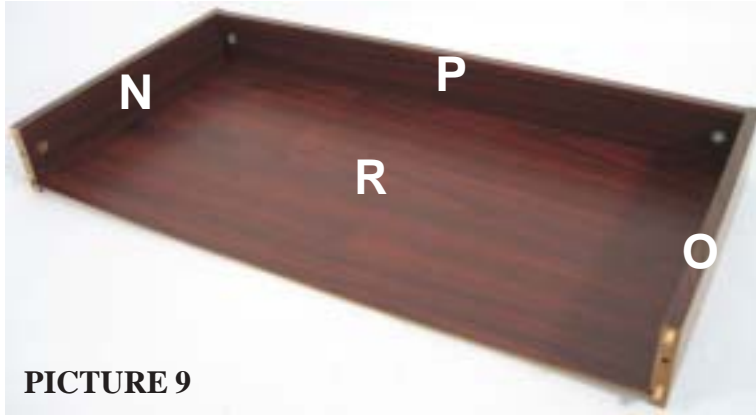

Take the FOUR METAL PINS (M) and screw them into the pre-installed threaded plastic jackets on drawer parts N, O, and S. Screw in the pins only as deep as their threads.

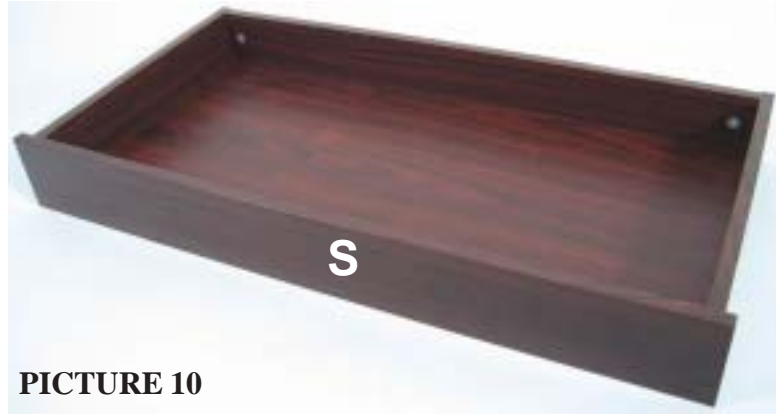

PICTURE 8

STEP 9: See PICTURE 9. Insert the METAL PINS (M), and the wooden pegs, on the LEFT (N) and RIGHT SIDE PANELS (O) into the holes on the side edges of the BACK PANEL (P). Be sure all of the shelf grooves are lined up. Insert TWO ROUND METAL CAMS (Q) into the holes on the BACK PANEL (P) with the arrows on the cams pointing towards the heads of the metal pins. Turn the cams clockwise using a standard screwdriver until they lock over the heads of the pins. Insert the BOTTOM PANEL (R) into the grooves and be sure it's seated on all three sides.

STEP 10: See PICTURE 10. Repeat the pin and cam procedure from Step 9 to attach the FRONT PANEL (S) to the LEFT (N) and RIGHT SIDE PANELS (O). Be sure the BOTTOM PANEL (R) is properly seated in the grooves on all four sides.

PICTURE 9

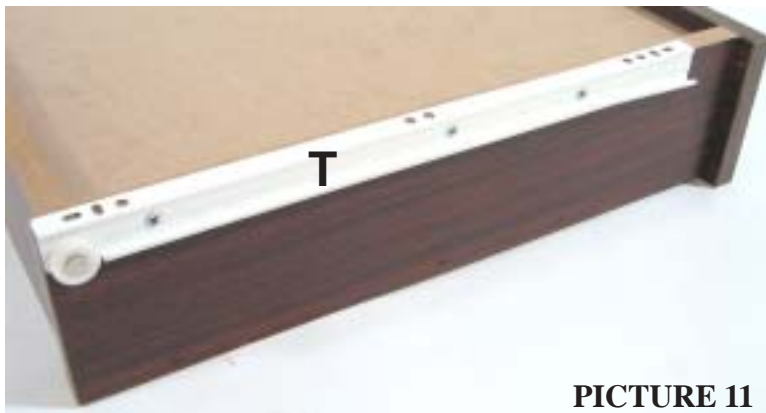

PICTURE 10

STEP 11: See PICTURE 11. With the drawer upside down, attach the TWO INSIDE DRAWER TRACKS (T) to the SIDE PANELS (N, O) using the pre-drilled holes and THREE ½" SCREWS (C) for each track. The wheels on the tracks line up with the back edge of the drawer.

STEP 12: See PICTURE 12. Insert the drawer into the changing table. Angle the drawer so that you can slide the wheels on the inside tracks (T) over and behind the wheels on the outside tracks (A); then holding the drawer level push it all the way into the table. When properly installed the drawer will glide in and out smoothly and the wheels act as a stopper to keep the drawer from falling out when fully opened.

Place the MATTRESS PAD (L) onto the TOP SHELF (H) underneath the SAFETY BELT (I).

**YOUR CHANGING TABLE IS NOW ASSEMBLED!
DO NOT USE THIS PRODUCT UNTIL YOU
HAVE REVIEWED THE SAFETY INSTRUCTIONS
ON PAGE 5!**

!! WARNING !! ATTENTION !!

- * **READ ALL INSTRUCTIONS** before use of this changing table.
- * **Keep instructions** for future use.
- * **Use only the changing pad** provided by Badger Basket.
- * **Do not use the changing table** if it is damaged or broken.
- * **FALL HAZARD** - To prevent death or serious injury, always keep baby within arm's reach. **NEVER** leave your baby unattended, not even for a moment, when you are changing Baby's diaper.
- * **ALWAYS** use the safety belt; and as an extra precaution keep at least one hand on your baby at all times.
- * **DO NOT** allow any children to climb or play on the table.
- * **NEVER** load the drawer with items weighing more than a total of five (5) pounds (2.3 kg).
- * **NEVER** lean on the drawer when it's open and never use the drawer as a surface for changing your baby.
- * **Periodically check** to make sure all the bolts and screws remain tight and that the drawer is properly aligned in its tracks.

USE AND CARE INSTRUCTIONS:

This sturdy changing table is suitable for use with children up to 30 pounds (13.64 kg).

Wipe the table, pad, and safety belt clean with a damp cloth and mild soap as needed.

Accessorize your changing table with Badger Nursery Baskets (sold separately)!
