**These assembly instructions cover both Elegance™ ROUND bassinets and Elite™ OVAL bassinets. The shape of the units is different but the parts and assembly steps are identical.**

**STEP 1 - PICTURES 1A and 1B:**

Attach ONE CASTER WHEEL (E) to each leg of the END PANELS (A) using ONE BOLT (E2) and ONE KNOB (E3) for each WHEEL (E1). The knobs go on the inside. The square hole on the wheel goes on the outside so the head of the bolt “locks” into the hole.

Take ONE END PANEL (A) and attach the TWO RAILS (B) using TWO LONG BOLTS (C). **The grooves on the rails face inwards. The T-Nuts pre-installed on the end panels face out.**

Slide the SHELF (D) into the grooves with the white warning label facing up. Then attach the second END PANEL (A) to the TWO RAILS (B) using TWO LONG BOLTS (C).

**STEP 2 - PICTURE 2A (this page) and 2B (on page 3):**

Using the FOUR L-BRACKETS (F) and the SIXTEEN SHORT BOLTS (G), bolt the BASSINET BODY (H) to the BASSINET STAND.

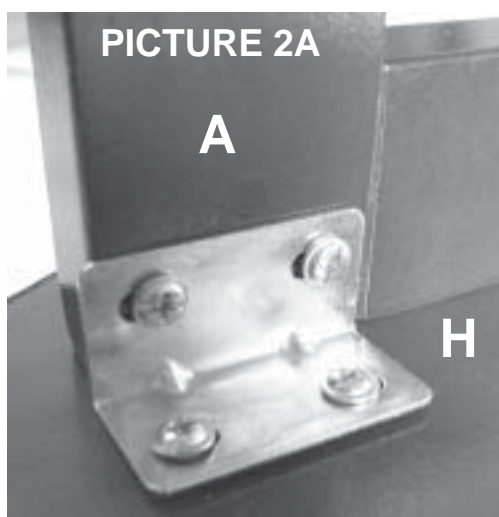

Put the bassinet body upside down, and then put the bassinet stand upside down on top of the bassinet body as shown in PICTURE 2B.

Line up the four pairs of holes on the END PANELS (A) with the four pairs of holes on the BASSINET BODY (H).

Position the L-BRACKETS (F) on the INSIDE OF THE END PANELS and secure them using the SIXTEEN SHORT BOLTS (G).

**STEP 3 - PICTURE 3:**

With the bassinet in its upright position, wrap the FABRIC SKIRT (I) around the lower rim of the BASSINET BODY (H) pressing the grip tape strips together as you go around. Begin and end at the rear center where the metal spindle is located (the ends may overlap).

**STEP 4 - PICTURE 4:**

There are two holes in the metal spindle on the bassinet body to height adjust the canopy. Insert the METAL CANOPY POLE (J) into the metal spindle on the bassinet body (H) and line up a hole on the metal spindle with the push button on the canopy pole. Make sure the push button snaps into the hole.

**PICTURE 4**

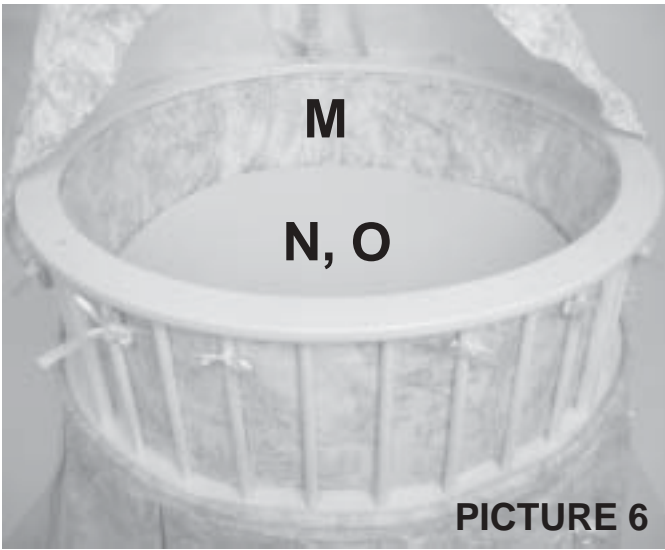

**STEP 5 - PICTURE 5:**

Insert the two free ends of the CANOPY FRAME (K) into the top of the CANOPY POLE (J). Tap gently with a hammer until the ends of the frame are fully seated inside the pole.

Place the FABRIC CANOPY (L) onto the CANOPY FRAME (K). Secure it to the frame with the ribbons and/or the grip tabs.

**PICTURE 6**

**STEP 6 - PICTURES 6 and 7:**

Position the FABRIC BUMPER (M) inside the BASSINET BODY (H). Position and then secure the **tabs** on the bumper to the **thicker dowels** and tie the ribbons, and then tie the remaining ribbons to the thinner dowels.

**NOTE: Be sure the bumper is secured and check the ribbons regularly to make sure they stay tied. Loose bedding can be a danger to your baby.**

Put the FABRIC FITTED SHEET (N) onto the MATTRESS (O) and place them inside the bassinet. Additional sheets are sold separately! Contact us or check our web site for more information or to find a retailer.

**Check ALL OF THE HARDWARE to make sure everything is fully tightened. Carefully review the safety information below.** NOTE: Your bedding and canopy may vary in color, pattern, and/or style from what is shown here.

**CARE INSTRUCTIONS:** Wipe bassinet clean with a damp cloth and mild detergent as needed. Bedding can be machine washed on cold, gentle cycle, and air dried or tumble dry on low or no heat. Iron on lowest setting for poly/cotton. Secure all grip tabs together before washing so they do not catch on the bedding or ribbons.
