(S) SWAROVSKI STRASS CRYSTAL: Absolute perfection.

Considered the finest crystal in the world: optically pure, free of flaws, and unique in purity. Strass is manufactured by Swarovski AG in the Austrian Alps. The lead content is in excess of 30 percent. All the crystals are treated with an invisible coating, which eliminates dust attraction and makes it easier to clean. The Strass signature emblem is indelibly etched into every crystal by state of the art laser technique.

(SAQ) SWAROVSKI SPECTRA CRYSTAL: A beautiful value.

A passion for perfection has made Swarovski the world leader in the production of cut crystal. Swarovski & Co., manufacturer of Strass Crystal, has created a new alternative quality crystal. Swarovski has used advanced technology with old world knowledge to produce a brilliant crystal with precision cutting and superior light reflection. This crystal type is designed for a crystal connoisseur demanding quality at an affordable price.

(CL-MWP) HAND-CUT CRYSTAL, MAJESTIC WOOD POLISHED: The choice of traditionalists.

Our majestic Wood Polished crystal is cut by hand in two stages on an iron and then a sandstone wheel. Each crystal is then polished on a wood wheel with marble dust. These methods go back centuries. If you look closely you will notice faint traces of the wood-wheel attesting to the concentrated labor of the artisan. This is a mark of authenticity. Each piece is a unique and original masterpiece.

(SSS) SWAROVSKI SILVER SHADE STRASS CRYSTAL

Fashion is the inspiration for this new pale shade of crystal. The subtle, faintly iridescent color is the new highly received chic crystal color. From traditional to contemporary, the mirrored like tones that coat the Silver Shade Strass Crystal help these collections coordinate with any décor. Silver Shade Strass is authentic Swarovski Strass crystal. Every Strass Silver Shade crystal carries the Strass emblem which guarantees the optical pure quality

(GTS) SWAROVSKI GOLDEN TEAK STRASS CRYSTAL

Golden Teak Strass is authentic Swarovski Strass crystal. Each piece is color coated to give the warmth and elegance. Every Strass Golden Teak crystal carries the Strass signature. This guarantees the optical purity, quality and true value found only in Swarovski Strass. The classical Golden Teak color will inspire any interior with its rich deep color.

(GT-MWP) GOLDEN TEAK HAND-CUT CRYSTAL

Crystal is transparent glass of a high degree of brilliance and optical purity. The fire and brilliance of crystal comes from the reflection of light passing through a prism. The warm Golden Teak color is added to the crystal and then hand polished on a wooden wheel. The fashion forward Golden Teak is designed for today's interiors.
