

ADJUSTABLE YOKE ■ NEW CONSTRUCTION • LINE VOLTAGE • PAR30

Lamp: PAR 30 120V Short Neck

Features:

- Like a standard, yoke mounted track fixture in a recessed square or rectilinear housing on the ceiling – an economical means of making square and linear multiple downlights.
- Specifically designed to allow 35° of adjustability.
- Available with popular decorative Geometric Baffle Trim or with Open Trim.
- Allows use of a wide variety of PAR30 Halogen lamp types.
- Provides the user with a broad range of wattages, beam spreads, and excellent lamp life, while offering truly excellent color temperature.
- Wattage available is up to 75w.
- Lamp replacement is the same as for track fixture types, with simple re-aiming after re-lamping sometimes required.
- Specially designed trim allows use in ceilings up to 2" thick.
- Standard 3/4" overlap flanges assure a clean installation with Jesco Lighting's pull-tight springs – a design allowing forgiveness to minor cutting errors on site.
