

Center Power Feed

Shown approximately 15% actual size.

DESCRIPTION

Center Power Feeds are generally used to bring power to a Wall MonoRail system when the junction box cannot be located directly behind the rail. The center power feed can be used anywhere within the run and includes a removable 4" round canopy and 12' of field-cutttable softwire leads. Specify dual-feed when using a dual-feed transformer. Dual-feed canopy includes isolating connectors.

INSTALLATION

This product can mount to either a 4" square electrical box with round plaster ring or an octagon electrical box (not included), directly to a remote transformer, or to a nearby Kable Lite Surface Transformer (sold separately).

FINISH

Antique bronze, chrome, satin nickel.

WEIGHT

1.95 lb./0.89 kg. ±
